Thank you for the opportunity to comment in this constructive dialogue on the VNR of Algeria.

We welcome the report's emphasis on expanding renewable energy under SDG 7 and recognize the importance of continuing to strengthen renewable energy development to support long-term sustainability and resilience striving for 100% renewable by 2045.

We also are dedicated to reduce inequalities, advance justice, protect our planet and peace under SDG 5, 10 and 16.

Regarding SDG 17, we would welcome further information on the Government's approach to inclusive partnerships. In particular:

How does the Government collaborate with civil society and other stakeholders in the implementation of the Sustainable Development Goals?

What progress has been made since Algeria's previous Voluntary National Review? Please provide positive examples of Leave No One Behind in practice.

What are the principal challenges that remain in achieving the Sustainable Development Goals, and how can stakeholders be engaged to assist to address them and achieve human rights for all ?
